

WORKMATE® PROJECT CENTERS

SB225

WM425

WHAT TO KNOW ABOUT THE WORKMATE BEFORE YOU BUY

It's a workbench, a bench tool stand, a sawhorse, a woodworking vise. It's the innovative Black & Decker Workmate Project Center, the convenient all-in-one work center that provides clamping for virtually any project, extra workspace, and folds down for easy storage. You'll find this sturdy and durable project center indispensable for an unlimited range of Do-It-Yourself home projects. The Workmate Project Center is, in fact, so versatile and has so many uses, you are only limited by your own ingenuity.

- Portable Workmate Project Center can be moved right to the project location, rather than bringing the project to your workshop, saving you time and labor.
- Clamping vise jaws make it easier to hold a variety of objects and oddly shaped materials.
- Durable steel construction stands up to the rigors of tough work.
- Workmate Shopbox conveniently stores tools, is easy to carry, helps organize work materials, and offers comparable clamping versatility of the Workmate Project Center.

Workmate® 425 Project Center

WM425

- Advanced One Handed Clamp™ system with exclusive clutch design for easy clamping
- Vertical clamping feature permits front jaws to swing up to apply downward clamping pressure on material
- Large center board increases work surface
- Conveniently folds for easy storage and transport
- Practical dual height allows unit to serve as a workbench, bench tool stand, vise or sawhorse; holds up to 550 lbs.
- **Includes:** (4) Swivel pegs and rubber feet
