

Black & Decker[®] **WORKMATE**[™]

All-purpose work center & vise

79-001

Possibly one of the most versatile pieces of equipment ever for the do-it-yourselfer. Completely portable. Can be set up anywhere—in workshop, garage, or on work site. Folds flat for easy storage. Very useful to on-the-job professionals too.

It's the Black & Decker WORKMATE work center, a foldaway, portable work center, giant vise and sawhorse all in one! Vise holds materials up to 10" wide. Double adjustment levers on vise permit holding wedge shapes. Swivel grip pegs hold irregular and circular objects. Horizontal V-grooves in vise jaws grip tubular pieces.

You can work all around your project rather than on one side as you must with a permanent work bench.

The WORKMATE does exactly what its name implies. It is your helper in making do-it-yourself projects easier, more comfortable to do. You'll wonder how you ever did without it.
